Seminar in Applied Mathematics

Excursions in Knowledge Representation

MICHAEL GELFOND

Texas Tech University

Wednesday, January 21, 2015
Room: MATH 111. Time: 4:00pm.

ABSTRACT. The talk will address several selected topics in knowledge representation. We will discuss the notions of declarative knowledge representation language, declarative programming, and formalization of common sense reasoning. The goal is to familiarize the audience with the research area, its problems, and the investigation methodology.
